- Test & Behavior-Driven-Development

EDUCATION

CareerFoundry | Full-Stack Web Development | 05/2023 – 05/2024

Penn Foster College | Industrial Electronics and Electrical Maintenance Technology | 12/2016 – 06/2022 | Associate's Degree

SUMMARY

Certified Full Stack Web Developer with a strong background in electronics and debugging, offering valuable experience from the automotive and EMS industries. Skilled in troubleshooting and analytical reasoning, with proven ability to handle complex data analysis tasks. Proficient in HTML, CSS, JavaScript, Angular, Node.js and React, bringing a well-rounded foundation to web development projects.

WEB DEVELOPMENT PROJECTS

Angular myFlix

04/2024 – 05/2024

- Created single-page client-side application using Angular framework based on existing server-side code
- Generated user stories and story points
- Implemented user registration and login forms

React Native Mobile Chat App

03/2024 – 04/2024

- Demonstrated proficiency in React and React Native programming skills
- Developed a messaging application for mobile phones with a user friendly chat interface
- Implemented functionalities allowing users to share images and their location seamlessly

myFlix (Movie database and web app)

11/2023 – 02/2024

MERN tech stack application

- Developed the server-side and client-side of a web application
- Created a robust architecture using the MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Integrated business logic, designed databases, implemented various frameworks and ensured robust authentication and data security measures

ANCA WOLF

Full Stack Web Developer

TRANSFERABLE SKILLS

Laboratory technician

- Testing
- Data analysis

- Wiring diagrams
- Soldering
- Electronics repair
- Debugging

Overall

- SixSigma
- 5S
- Lean Methodologies
- Agile Methodologies
- Kaizen
- Microsoft office
- CAD
- LabVIEW
- IPC Standards

In progress (self-learning)

- Python Basics
- C# basics
- VueJS basics
- Linux

Soft skills

- Empathy
- Adaptability
- Analytical thinking
- Problem-solving

LANGUAGES

German	B2-C1
English	Bilingual
Romanian	Native level

WORK EXPERIENCE

Laboratory Technician

09/2017 – 08/2022

AB Elektronik GmbH | Werne, NRW, Germany

- Conducted comprehensive analysis for over 10 customer claims per week regarding product performance
- Applied a systematic approach, including visual inspection and functional testing
- Performed manual verification of mechanical conformity
- Provided detailed insights into product performance to address customer concerns promptly and effectively

Laboratory Technician

06/2016– 07/2017

TT Electronics Sensing and Control| Timisoara, Romania

- Performed mechanical and electronic analysis of customer claims
- Performed functional testing for product conformity and validation
- Provided detailed insights into product performance to address customer concerns promptly and effectively

Debug Technician

09/2013 – 06/2016

Flextronics Romania SRL | Timisoara, Romania

- Collaborated with the engineering teams to introduce new product variants or families
- Resolved technical issues, including VoIP and TDM phone equipment problems, PBX interfacing, and production line inefficiencies, minimizing downtime and enhancing operational efficiency
- Optimized production line productivity, contributing to improved workflow and overall performance
